

**To: All Family Child Care Home Providers**

The Department of Social Services, Community Care Licensing Division, Child Care Program would like to share new information provided by the California Department of Public Health regarding free COVID-19 at-home rapid testing kits.

Every home in the U.S. is now eligible for an additional 3<sup>rd</sup> round of test kits. An order includes a total of 8 tests, shipped in two separate packages that contain 4 tests each. Testing, along with vaccinations and masking, help to reduce the chance of spreading of COVID-19 and its variants.

To order the free tests and for more information about COVID-19, please visit the government's [COVID-19 Testing and Resource Website](#).

In Partnership,

The Child Care Program
